

### TerraRich®

#### Heavy Duty Seamless Topping

TerraRich is a resin-rich epoxy flooring system containing twice as much resin as standard trowelled systems. This high resin content results in a non-porous barrier of protection ideal for wet processing environments.

With a compressive strength 3-4 times that of concrete, TerraRich can also take the extreme physical abuse required in heavy manufacturing facilities.

#### Key Features

Resin-rich technology - zero porosity

100% solids, low odor

Chemically resistant

Low maintenance

Ideal for wet processing areas

### PT Clad

#### Resurfacing Mortar System

PT Clad is a 1/4" power-trowelled flooring system. It is ideal for restoring heavily degraded concrete surfaces and for providing level surfaces for aisles and production areas.

PT Clad withstands the severe mechanical abuse typical in manufacturing environments.

#### Key Features

Resurfaces eroded concrete

Ideal for heavy manufacturing areas

Smooth or orange peel finish

100% solids, low odor

## TerraSeal

### High Performance Coating

TerraSeal is a superior epoxy coating cured with a cycloaliphatic amine for maximum gloss and color retention. Use it as a finish coat for the TerraRich or PT Clad systems or apply it as a stand alone thin film coating. Either way, TerraSeal is the ideal product for applications where aesthetics are as important as performance.

### Key Features

High Gloss Finish

Chemically Resistant

Smooth or orange peel finish

100% solids, low odor

### Facilities

Dairies

Warehouses

Chemical Plants

Commercial Kitchens

Pharmaceutical Plants

Secondary Containment

Wastewater Treatment Plants

Food and Beverage Facilities

## TerraQuartz®

### Durable Quartz Floor

TerraQuartz is the ultimate combination of rugged durability and aesthetic beauty. This 1/8" thick system is available in a variety of color blends to fit your specific application. Our cutting edge clear coat technology creates a superior finish that outlasts competitive quartz systems.

### Key Features

1/8" thick for outstanding durability

Low maintenance

Superior uV and stain resistance

Seamless protection
